

Ex-GCC-ers

For former employees of GCC (General Computer Company, Cambridge, MA)

RoguesGallery

This album has high-resolution scans of pictures of the company's "Rogues Gallery".

RoguesGallery : Games Era Rogues Gallery

This is a high-res scan of a picture I (szy) took of the rogue's gallery sometime late in the game era (before the lay off). Unfortunately, the focus wasn't great, so I'm not sure how much you can make out; but it is here for anyone who wants to see it.

RoguesGallery : Peripheral Era Rogue's Gallery

Here's a high resolution scan of a picture I (szy) took of the rogue's gallery from when the company was focused on building HyperDrives. The quality of the negative was decent, so you can actually get some uneful info out of this.
